**FOR IMMEDIATE RELEASE**  
**October 20, 2015**

### **FIFTH THIRD ANNOUNCES THIRD QUARTER 2015 NET INCOME TO COMMON SHAREHOLDERS OF \$366 MILLION, OR \$0.45 PER DILUTED SHARE**

- 3Q15 net income available to common shareholders of \$366 million, or \$0.45 per diluted common share
  - Includes a \$130 million pre-tax (~\$84 million after tax) positive valuation adjustment on the warrant Fifth Third holds in Vantiv, \$35 million pre-tax (~\$23 million after tax) of provision expense related to the restructuring of a student loan backed commercial credit originally extended in 2007, a \$9 million pre-tax (~\$6 million after tax) charge associated with executive retirement and severance costs, and an \$8 million pre-tax (~\$5 million after tax) charge related to the valuation of the Visa total return swap, resulting in a net \$0.06 impact on earnings per share
- 3Q15 return on average assets (ROA) of 1.07%; return on average common equity of 10.0%; return on average tangible common equity\*\* of 12.0%
- Pre-provision net revenue (PPNR)\*\* of \$671 million in 3Q15
  - Net interest income (FTE) of \$906 million, up 2 percent sequentially and flat from 3Q14; net interest margin of 2.89%, down 1 bp sequentially
  - Average portfolio loans of \$93.4 billion, up \$1.2 billion sequentially and up \$2.6 billion from 3Q14; both increases primarily driven by increases in C&I loans
  - Noninterest income of \$713 million compared with \$556 million in the prior quarter; impacted by valuations on the Vantiv warrant in both quarters, lower mortgage banking net revenue, and the impairment charge related to announced changes in the branch network in the prior quarter
  - Noninterest expense of \$943 million, flat from prior quarter
- Credit trends
  - 3Q15 net charge-offs of \$188 million (0.80% of loans and leases) increased from 2Q15 NCOs of \$86 million (0.37% of loans and leases) due to the \$102 million impact from the restructuring of a student loan backed commercial credit originally extended in 2007
  - Portfolio NPA ratio of 0.65% down 2 bps from 2Q15, NPL ratio of 0.49% down 2 bps from 2Q15; total nonperforming assets (NPAs) of \$608 million, including loans held-for-sale (HFS), declined \$19 million sequentially
  - 3Q15 provision expense of \$156 million; \$79 million in 2Q15 and \$71 million in 3Q14; increases driven by a \$35 million expense related to the restructuring of a student loan backed commercial credit originally extended in 2007 in 3Q15 and broadening global economic slowdown and associated implications
- Strong capital ratios\*
  - Common equity Tier 1 (CET1) ratio 9.40%; fully phased-in CET1 ratio of 9.30%
  - Tier 1 risk-based capital ratio 10.49%, Total risk-based capital ratio 13.68%, Leverage ratio 9.38%
  - Tangible common equity ratio\*\* of 8.65%; 8.32% excluding securities portfolio unrealized gains/losses
- 15 million reduction in common shares outstanding during the quarter
- Book value per share of \$18.22 up 3 percent from 2Q15 and up 8 percent from 3Q14; tangible book value per share\*\* of \$15.18

\* Capital ratios estimated; presented under current U.S. capital regulations.

\*\* Non-GAAP measure; see Reg. G reconciliation on page 33.

Fifth Third Bancorp (Nasdaq: FITB) today reported third quarter 2015 net income of \$381 million versus net income of \$315 million in the second quarter of 2015 and \$340 million in the third quarter of 2014. After preferred dividends, net income available to common shareholders was \$366 million, or \$0.45 per diluted share, in the third quarter of 2015, compared with \$292 million, or \$0.36 per diluted share, in the second quarter of 2015, and \$328 million, or \$0.39 per diluted share, in the third quarter of 2014.

"We had a very active quarter as we made progress in our strategic business executions to improve the future performance of our company," said Greg D. Carmichael, President and CEO-elect of Fifth Third Bancorp. "During the quarter we executed the sale of 29 retail locations in Pittsburgh and St. Louis which are expected to close early next year, while the remaining branch consolidations continue on the planned track for completion by the middle of 2016. In the past few weeks, we also resolved three significant, long-standing matters with government agencies, as previously disclosed. In addition, during the quarter we added three seasoned, key executives to the executive team. I am confident that we have the experience and talent to achieve our goal to be the top performing bank across the full business cycle. Our focus is on building long-term value for our shareholders by growing profitable relationships with our retail and commercial clients as a trusted partner.

“Our core businesses continue to produce solid results despite the uncertainties surrounding the domestic and global economic environment,” said Carmichael. “Current strategies reflect our focus on loan growth and revenue generation with an emphasis on maintaining a strong balance sheet that will perform well in a variety of economic environments. The business decisions and risk management actions this quarter and going forward will continue to reflect our fundamental goal to produce consistent, long-term outperformance in our sector. Our management team will maintain that discipline in all of our businesses.

“Net interest income was up 2 percent sequentially and flat from a year ago, supported by growth in our commercial business, particularly in C&I lending, which was up 1 percent sequentially and 4 percent from a year ago. Corporate banking revenues grew 4 percent from a year ago, driven by capital markets fee growth of 17%. Our balance sheet remains well-positioned with appropriate interest rate and liquidity risk positions for the current rate environment.

“As I begin my tenure as CEO, our 18,000-plus team members are focused on maintaining the historical core performance of the company and creating and sustaining the operational excellence necessary to perform well through the economic cycles.”

Bancorp shareholders' equity	15,815	15,841	15,820	15,644	15,486	-	2%

Net interest income increased \$14 million to \$906 million on a fully taxable equivalent basis from the second quarter, primarily driven by loan growth, partially offset by interest expense associated with the \$1.1 billion of holding company debt and \$1.3 billion of bank-level debt issued in the third quarter of 2015.

The net interest margin was 2.89 percent, a decrease of 1 bp from the previous quarter, primarily driven by the impact of debt issuances discussed above, day count, and loan yield compression, partially offset by the benefit of the slightly lower short-term cash position during the quarter.

Compared with the third quarter of 2014, net interest income decreased \$2 million and the net interest margin decreased 21 bps. The decrease in net interest income was driven by a \$24 million decline due to the changes to the Bancorp's deposit advance product that were effective January 1, 2015, higher interest expense due to increased long-term debt balances, as well as continued loan repricing, partially offset by the impact of higher investment securities balances. The decline in the net interest margin from the prior year was primarily driven by an 8 basis point impact due to the changes to the deposit advance product and loan repricing.

## Securities

Average securities and other short-term investments were \$30.1 billion in the third quarter of 2015 compared with \$30.6 billion in the previous quarter and \$24.9 billion in the third quarter of 2014. Other short-term investments average balances of \$1.8 billion decreased \$1.4 billion sequentially reflecting lower cash balances held at the Federal Reserve. On an end of period basis, securities balances of \$29.3 billion increased \$816 million driven by purchases funded with cash balances at the Federal Reserve held in other short-term investments and the increase in the unrealized gain in the available-for-sale portfolio of \$309 million.

## Loans

Subtotal - consumer loans and leases	36,390	36,150	35,929	36,775	36,555	1%	-
Total average loans and leases (excluding held for sale)	\$93,373	\$92,173	\$90,508	\$91,041	\$90,799	1%	3%
Average loans held for sale	956	566	1,151	540	629	69%	52%

Average loan and lease balances (excluding loans held-for-sale) increased \$1.2 billion, or 1 percent, sequentially and increased \$2.6 billion, or 3 percent, from the third quarter of 2014. The sequential and prior year increases in average loans and leases were driven by increased commercial and industrial (C&I), commercial construction, and residential mortgage balances, partially offset by decreased home equity and commercial mortgage balances. Period end loans and leases (excluding loans held-for-sale) of \$93.6 billion increased \$871 million, or 1 percent, sequentially and increased \$3.0 billion, or 3 percent, from a year ago.

Average commercial portfolio loan and lease balances increased \$960 million, or 2 percent, sequentially and increased \$2.7 billion, or 5 percent, from the third quarter of 2014. Average C&I loans increased \$599 million, or 1 percent, from the prior quarter and increased \$1.7 billion, or 4 percent, from the third quarter of 2014. Within commercial real estate, average commercial mortgage balances continued to decline and average commercial construction balances increased due to better customer activity and the continued focus on that business. Commercial line usage, on an end of period basis, was 32 percent of committed lines in the third quarter of 2015 compared with 33 percent in the second quarter of 2015 and 32 percent in the third quarter of 2014.

Average consumer portfolio loan and lease balances increased \$240 million, or 1 percent, sequentially and were flat year-over-year. Average residential mortgage loans increased 2 percent sequentially and 3 percent from a year ago. Average auto loans were flat sequentially and down 2 percent from the previous year. Average home equity loans declined 2 percent sequentially and 6 percent from the third quarter of 2014. Average credit card loans decreased 1 percent sequentially and from the third quarter of 2014.

Average loans held-for-sale balances of \$956 million increased \$390 million sequentially primarily due to loans associated with the announced sale of certain branches during the quarter, and increased \$327 million compared with the third quarter of 2014.

(a) Includes commercial customer Eurodollar sweep balances for which the Bancorp pays rates comparable to other commercial deposit accounts.

Average core deposits decreased \$1.8 billion, or 2 percent, sequentially and increased \$5.6 billion, or 6 percent, from the third quarter of 2014. Average transaction deposits decreased \$1.8 billion, or 2 percent, from the second quarter of 2015 primarily driven by lower interest checking and savings account balances, partially offset by higher money market account balances. The lower interest checking balances were largely due to targeted pricing changes in certain accounts. Year-over-year transaction deposits increased \$5.3 billion, or 6 percent, driven by higher demand deposit, money market account, and interest checking account balances, partially offset by lower foreign office and savings account balances. Other time deposits were flat sequentially and increased 7 percent compared with the third quarter of 2014.

Average commercial transaction deposits decreased 2 percent sequentially and increased 9 percent from the previous year. Sequential performance was primarily driven by declines in interest checking account balances due to targeted pricing changes in LCR punitive accounts, partially offset by higher money market account and demand deposit account balances. Year-over-year growth reflected higher demand deposit, money market account, and interest checking account balances, partially offset by lower foreign office balances.

Average consumer transaction deposits decreased 2 percent sequentially and increased 4 percent from the third quarter of 2014. The sequential performance reflected lower demand deposit, savings, and interest checking account balances as a result of targeted repricing of certain deposit accounts. Year-over-year growth was driven by increased money market account, demand deposit, and interest checking account balances, partially offset by lower savings account balances.

Average wholesale funding of \$21.7 billion increased \$3.4 billion, or 18 percent, sequentially, and increased \$1.9 billion, or 10 percent, compared with the third quarter of 2014. The sequential increase was primarily driven by an increase in federal funds purchased, and the issuance of \$1.1 billion of 5-year holding company debt and \$1.3 billion of 3-year bank-level debt. Total wholesale funding was \$23.5 billion on an end of period basis due to increased short-term borrowings in response to deposit runoff from targeted pricing changes in LCR punitive accounts and meeting quarter end cash targets. The year-over-year increase in average wholesale funding reflected an increase in long-term debt due to issuances during 2014 and 2015 and an increase in federal funds purchased, partially offset by decreases in certificates \$100,000 and over and other short-term borrowings.

## Noninterest Income excluding certain items

	For the Three Months Ended			% Change	
	September	June	September	Seq	Yr/Yr
	2015	2015	2014		
<b>Noninterest Income excluding certain items (\$ in millions)</b>					
Noninterest income (U.S. GAAP)	\$713	\$556	\$520

<b>Noninterest income excluding certain items</b>	<b>\$591</b>	<b>\$637</b>	<b>\$573</b>	<b>(7%)</b>	<b>3%</b>

Excluding the items in the table above, noninterest income of \$591 million decreased \$46 million, or 7 percent, from the previous quarter and increased \$18 million, or 3 percent, from the third quarter of 2014. The sequential decline was primarily due to decreases in mortgage banking net revenue and corporate banking revenue. The year-over-year increase was primarily due to higher mortgage banking net revenue.

Service charges on deposits of \$145 million increased 4 percent from the second quarter and were flat compared with the same quarter last year. The sequential increase was due to a 6 percent increase in retail service charges due to seasonally higher overdraft occurrences as well as a 4 percent increase in commercial service charges.

Corporate banking revenue of \$104 million decreased \$9 million from the second quarter of 2015 and increased \$4 million from the third quarter of 2014. The sequential decrease was primarily due to seasonally lower institutional sales revenue, business lending fees, and foreign exchange fees, partially offset by higher interest rate derivative fees and syndications revenue. The year-over-year increase was driven by higher institutional sales revenue and loan syndications revenue, partially offset by lower foreign exchange fees.

Mortgage banking net revenue was \$71 million in the third quarter of 2015, down \$46 million from the second quarter of 2015 and up \$10 million from the third quarter of 2014. Third quarter 2015 originations were \$2.3 billion, compared with \$2.5 billion in the previous quarter and \$2.1 billion in the third quarter of 2014. Third quarter 2015 originations resulted in gains of \$46 million on mortgages sold, compared with gains of \$43 million during the previous quarter and \$34 million during the third quarter of 2014. Mortgage servicing fees were \$54 million this quarter, \$56 million in the second quarter of 2015, and \$61 million in the third quarter of 2014. Mortgage banking net revenue is also affected by net servicing asset valuation adjustments, which include mortgage servicing rights (MSR) amortization and MSR valuation adjustments (including mark-to-market adjustments on free-standing derivatives used to economically hedge the MSR portfolio). These net servicing asset valuation adjustments were negative \$29 million in the third quarter of 2015 (reflecting MSR amortization of \$37 million and MSR valuation adjustments of positive \$8 million); positive \$18 million in the second quarter of 2015 (MSR amortization of \$39 million and MSR valuation adjustments of positive \$57 million); and negative \$34 million in the third quarter of 2014 (MSR amortization of \$33 million and MSR valuation adjustments of negative \$1 million). The mortgage servicing asset, net of the valuation reserve, was \$757 million at quarter end on a servicing portfolio of \$60 billion.

Investment advisory revenue of \$103 million decreased 2 percent from the second quarter and was flat year-over-year. The sequential decrease was due to lower securities and brokerage fees and personal asset management fees due to the market decline during the quarter.

Card and processing revenue of \$77 million in the third quarter of 2015 was flat sequentially and increased 3 percent from the third quarter of 2014. The year-over-year increase reflects an increase in the number of actively used cards and an increase in customer spend volume.

Other noninterest income totaled \$213 million in the third quarter of 2015, compared with \$1 million in the previous quarter and \$33 million in the third quarter of 2014. As previously described, the results included the adjustments in the prior table with the exception of securities gains in all comparable periods. Excluding these items, other noninterest income of \$91 million increased approximately \$5 million, or 6 percent, from the second quarter of 2015 and increased approximately \$2 million, or 2 percent, from the third quarter of 2014.

Net gains on investment securities were immaterial in the third quarter of 2015, compared with \$4 million in the previous quarter and \$3 million in the third quarter of 2014.

<b>Total noninterest expense</b>	<b>\$943</b>	<b>\$947</b>	<b>\$923</b>	<b>\$918</b>	<b>\$888</b>	<b>-</b>	<b>6%</b>

Noninterest expense of \$943 million was flat compared with the second quarter of 2015 and increased 6 percent compared with the third quarter of 2014. The sequential comparison reflected lower benefits and occupancy expense, partially offset by higher compensation primarily associated with executive retirement and severance costs. The year-over-year increase reflected higher compensation expense, the change in provision for unfunded commitments and marketing expense.

Consumer	0.51%	0.46%	0.59%	1.47%	0.66%

Net charge-offs were \$188 million, or 80 bps of average loans and leases on an annualized basis, in the third quarter of 2015 compared with net charge-offs of \$86 million, or 37 bps, in the second quarter of 2015 and \$115 million, or 50 bps, in the third quarter of 2014. The third quarter of 2015 net charge-offs included \$102 million related to the restructuring of a student loan backed commercial credit originally extended in 2007, \$80 million of which had been reserved for in prior quarters as the loan is collateral dependent with the related allowance for loan loss being measured based on the fair value of the underlying collateral. During the quarter, changing collateral performance characteristics and lower valuations for student loan portfolios resulted in the need to restructure the terms of the commercial loan. The resulting decline in the market values led to the actions taken as the reserves on this collateral-dependent loan are measured based on the fair value of the underlying student loan portfolio. Excluding this credit, net charge-offs were \$86 million, or 37 bps, in the third quarter of 2015, flat with net charge-offs in the prior quarter.

Commercial net charge-offs were \$142 million, or 99 bps, and were up \$97 million sequentially. C&I net charge-offs of \$128 million increased \$94 million from the previous quarter primarily due to the student loan backed credit mentioned above, and commercial real estate net charge-offs increased \$3 million from the previous quarter.

Consumer net charge-offs were \$46 million, or 51 bps, up \$5 million sequentially. Net charge-offs on residential mortgage loans in the portfolio were \$3 million, down \$2 million from the previous quarter. Home equity net charge-offs were \$9 million, in line with the second quarter of 2015, and net charge-offs in the auto portfolio of \$7 million were up \$3 million compared with the prior quarter due to seasonality. Net charge-offs on consumer credit card loans were \$21 million, in line with the second quarter. Net charge-offs on other consumer loans were \$6 million, up \$4 million compared with the previous quarter primarily due to seasonality.

(a) Excludes nonaccrual loans and leases in loans held for sale.

Provision for loan and lease losses totaled \$156 million in the third quarter of 2015. The allowance represented 1.35 percent of total portfolio loans and leases outstanding as of quarter end, compared with 1.39 percent last quarter, and represented 275 percent of nonperforming loans and leases, and 208 percent of nonperforming assets.

The provision increased \$77 million from the second quarter of 2015 and increased \$85 million from the third quarter of 2014. This quarter's provision included a \$35 million impact related to the aforementioned student loan backed commercial credit, and the remainder of the increase was primarily due to the broadening global economic slowdown, stress on capital markets, and the prolonged softness in commodity prices. The allowance for loan and lease losses decreased \$32 million sequentially, including a \$67 million reduction related to the aforementioned student loan backed credit.

<i>(a) Excludes OREO related to government insured loans. The Bancorp has historically excluded government guaranteed loans classified in OREO from its nonperforming asset disclosures. Upon the prospective adoption on January 1, 2015 of ASU 2014-14 "Classification of Certain Government-Guaranteed Mortgage Loans Upon Foreclosure," government guaranteed loans meeting certain criteria will be reclassified to other receivables rather than OREO upon foreclosure.</i>					
<i>(b) Does not include nonaccrual loans held for sale.</i>					
<i>(c) Excludes \$21 million of restructured nonaccrual loans and \$7 million of restructured accruing loans as of September 30, 2015, June 30, 2015, March 31, 2015, December 31, 2014 and September 30, 2014.</i>					

Total nonperforming assets, including loans held-for-sale, declined \$19 million, or 3 percent, from the previous quarter to \$608 million. Nonperforming loans (NPLs) at quarter-end decreased \$17 million, or 4 percent, from the previous quarter to \$458 million or 0.49 percent of total loans, leases and OREO.

Commercial NPAs decreased \$6 million, or 2 percent, from the second quarter to \$370 million, or 0.65 percent of commercial loans, leases and OREO. Commercial NPLs decreased \$1 million from last quarter to \$286 million, or 0.50 percent of commercial loans and leases. C&I NPAs decreased \$10 million from the prior quarter to \$183 million. Commercial mortgage NPAs decreased \$1 million from the previous quarter to \$165 million. Commercial construction NPAs increased \$5 million from the previous quarter to \$19 million. Commercial lease NPAs were \$3 million, flat from the previous quarter. Commercial NPAs included \$177 million of nonaccrual troubled debt restructurings (TDRs), compared with \$175 million last quarter.

Consumer NPAs decreased \$14 million from the second quarter to \$236 million, or 0.64 percent of consumer loans, leases and OREO. Consumer NPLs decreased \$16 million from last quarter to \$172 million, or 0.47 percent of consumer loans and leases. Residential mortgage NPAs decreased \$10 million from the second quarter to \$91 million. Home equity NPAs decreased \$3 million, sequentially, to \$103 million and credit card NPAs were down \$3 million compared with the previous quarter to \$33 million. Consumer nonaccrual TDRs were \$76 million in the third quarter of 2015, compared with \$83 million in the second quarter of 2015.

Third quarter OREO balances included in NPA balances were down \$4 million from the second quarter to \$131 million, and included \$74 million in commercial OREO and \$57 million in consumer OREO. Repossessed personal property increased \$1 million from the prior quarter to \$17 million.

Loans over 90 days past due and still accruing were flat from the second quarter of 2015 to \$70 million. Commercial balances over 90 days past due were \$5 million compared with \$2 million in the prior quarter, and consumer balances 90 days past due decreased \$3 million from the previous quarter to \$65 million. Loans 30-89 days past due of \$214 million were up \$1 million from the previous quarter. Commercial balances 30-89 days past due increased \$1 million sequentially to \$25 million and consumer balances 30-89 days past due were flat from the second quarter at \$189 million. The above delinquencies figures exclude nonaccruals described previously.

Fifth Third entered into and completed multiple share repurchases during the quarter. Below is a summary of those share repurchases.

- On July 31, 2015, Fifth Third settled the forward contracted related to the April 27, 2015 \$155 million share repurchase agreement. An additional 0.84 million shares were repurchased upon completion of the agreement.
- On July 29, 2015, Fifth Third entered into a share repurchase agreement whereby Fifth Third would purchase approximately \$150 million of its outstanding stock. This reduced the third quarter share count by 6.0 million shares.
- On August 31, 2015, Fifth Third settled the forward contracted related to the July 29, 2015 \$150 million share repurchase agreement. An additional 1.35 million shares were repurchased upon completion of the agreement.
- On September 3, 2015, Fifth Third entered into a share repurchase agreement whereby Fifth Third would purchase approximately \$150 million of its outstanding stock. This reduced the third quarter share count by 6.54 million shares. Settlement of the forward contract related to this agreement is expected to occur on or before December 4, 2015.

In total, common shares outstanding decreased by approximately 15 million shares in the third quarter of 2015 from the second quarter of 2015.

#### **Tax Rate**

The effective tax rate was 26.0 percent this quarter compared with 26.1 percent in the second quarter of 2015 and 26.7 percent in the third quarter of 2014.

#### **Other**

Fifth Third Bank owns 43 million units representing a 22.8 percent interest in Vantiv Holding, LLC, convertible into shares of Vantiv, Inc., a publicly traded firm (NYSE: VNTV). Based upon Vantiv's closing price of \$44.92 on September 30, 2015, our interest in Vantiv was valued at approximately \$1.9 billion. Next month in our 10-Q, we will update our disclosure of the carrying value of our interest in Vantiv stock, which was \$415 million as of June 30, 2015. The difference between the market value and the book value of Fifth Third's interest in Vantiv's shares is not recognized in Fifth Third's equity or capital. Additionally, Fifth Third has a warrant to purchase additional shares in Vantiv which is carried as a derivative asset at a fair value of \$630 million as of September 30, 2015.

(b) The return on average tangible common equity is calculated as tangible net income available to common shareholders excluding tax effected amortization of intangibles) divided by average tangible common equity (average common equity less goodwill and intangible assets).

(c) The tangible common equity ratio is calculated as tangible common equity (shareholders' equity less preferred stock, goodwill, intangible assets and accumulated other comprehensive income divided by tangible assets (total assets less goodwill, intangible assets and AOCI).

(d) These ratios have been included herein to facilitate a greater understanding of the Bancorp's capital structure and financial condition. Non-GAAP measure; see Reg. G reconciliation on page 33.

(e) Excludes nonaccrual loans held for sale.

(f) Includes demand, interest checking, savings, money market and foreign office deposits of commercial customers.

(g) Includes transaction deposits plus other time deposits.

(h) Includes certificates \$100,000 and over, other deposits, federal funds purchased, short-term borrowings and long-term debt.

(i) Current period regulatory capital ratios are estimates.

(j) Non-GAAP measure; see Reg. G reconciliation on page 33.

(k) Under the banking agencies' Basel III Final Rule, assets and credit equivalent amounts of off-balance sheet exposures are calculated based upon the standardized approach for risk-weighted assets. The resulting values are added together resulting in the Bancorp's total risk-weighted assets.

(l) These capital ratios were calculated under the Supervisory Agencies general risk-based capital rules (Basel I) which were in effect prior to January 1, 2015.

(a) Current period regulatory capital data and ratios are estimated.

(b) Under the banking agencies' Basel III Final Rule, assets and credit equivalent amounts of off-balance sheet exposures are calculated according to the standardized approach for risk-weighted assets. The resulting weighted values are added together resulting in the total risk-weighted assets.

(c) These capital amounts and ratios were calculated under the Supervisory Agencies general risk-based capital rules (Basel I) which were in effect prior to January 1, 2015.

(d) This ratio has been included herein to facilitate a greater understanding of the Bancorp's capital structure and financial condition. Non-GAAP measure; see Reg. G reconciliation on page 33.

(a) Does not include nonaccrual loans held for sale.

(b) Excludes \$18, \$28, \$42, \$71 and \$85 of OREO related to government insured loans at September 30, 2015, June 30, 2015, March 31, 2015, December 31, 2014 and September 30, 2014, respectively. The Bancorp has historically excluded government guaranteed loans classified in OREO from its nonperforming asset disclosures. Upon the prospective adoption on January 1, 2015 of ASU 2014-14 "Classification of Certain Government-Guaranteed Mortgage Loans Upon Foreclosure," government guaranteed loans meeting certain criteria will be reclassified to other receivables rather than OREO upon foreclosure. The Bancorp had \$40, \$37 and \$21 of government guaranteed loans classified as other receivables as of September 30, 2015, June 30, 2015 and March 31, 2015, respectively.

(c) Does not include loans held for sale.

(1) Under the banking agencies' risk-based capital guidelines, assets and credit equivalent amounts of derivatives and off-balance sheet exposures are assigned to broad risk categories. The aggregate dollar amount in each risk category is multiplied by the associated risk-weight of the category. The resulting weighted values are added together, along with the measure for market risk, resulting in the Bancorp's total risk-weighted assets.

(2) The Bancorp became subject to the Basel III Final Rule on January 1, 2015. This codified in the federal banking regulations the risk-based capital ratios the Bancorp is now subject to, as such these ratios are no longer considered Non-GAAP measures.

(3) Primarily relates to disallowed intangible assets (other than goodwill and MSRs, net of associated deferred tax liabilities).

(4) Primarily relates to higher risk-weighting for MSRs.
